"Who Can Do It? I CAN!" is an energetic musical production with a focus on student motivation and self-esteem. Each song accents a particular message, and the overall production ties all of the messages together.

Throughout the show, teachers join Rick on stage to participate in the song. Students also participate as an entire audience. Rick plays electric guitar along with computer-generated backing tracks creating the energy of a full band.

Expect lots of movement, sing-alongs, and energy in the audience. And by the end of the show, everyone will be saying, "Who Can Do It? I CAN!"

## Show Synopsis

**Feeling OK** - The opening song of the show lifts the energy with an "island-style" feel. Rick likes to know that everyone is "Feeling OK", so all the kids are encouraged to say "OK" every time Rick says "OK". (Rick later regrets this.)

**Up and Down Blues** - Rick talks about how it is important to start each day by waking "UP." During the song kids stand up when Rick says, "up"; sit down when Rick says, "down"; and smile when Rick says, "smile." This activity often continues throughout the show usually when Rick has his back to the audience. Don't worry - it's all part of the fun.

**R-E-A-D** - One of Rick's most popular songs, the "R-E-A-D" song is the first opportunity for teachers to join Rick on stage. They hold up the big letters while the kids spell out READ.

**One Part** - Rick plays the island steel drum on this song. The message is that everyone has "one part" - some special gift or ability that no one else can duplicate. It's a reminder that everyone is special and everyone is important. Teachers join Rick on stage to play maracas.

**Big Round Rock** - This song about ecology and conservation incorporates a very large inflatable earth (complete with orbiting moon) that Rick calls the "Big Round Rock." We all have to work together to take care of our planet Earth - the Big Round Rock. Teachers play inflatable guitars in Rick's "Rock" band.

**Who Can Do It? I CAN!** - The title song of the show gives every student to opportunity to sing out the words "I Can." Rick teaches everyone to say "I Can" in sign language.

**Jump Up** - This island-flavored grand finale gives every one a chance to get out of the seat and jump up.

# Feeling OK

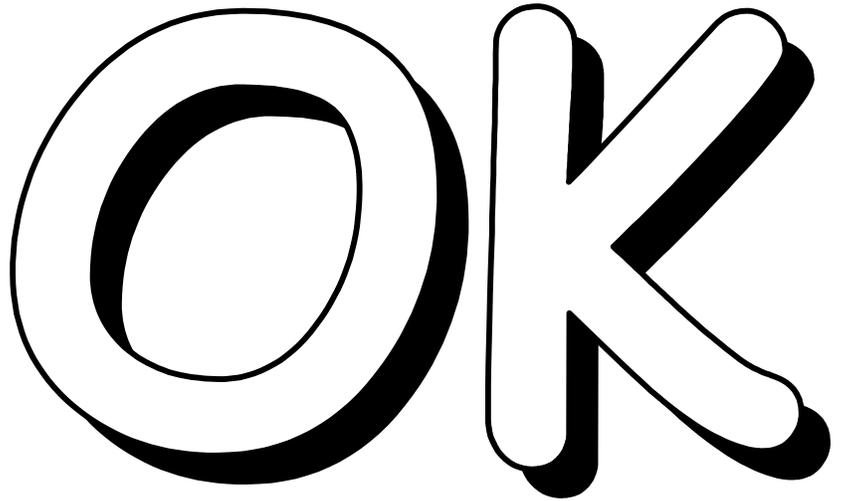

Let's have a good time  
Let's have some fun  
Let's have a good time  
For everyone  
Come on and join us  
Come on and play  
We'll all be feeling OK

It starts with me  
It starts with you  
Everybody's got one part to do  
You can do your part  
I can do mine  
And we'll all be feeling just fine

Feeling OK, (ok), OK, (ok), OK, (ok)  
And we've just begun  
Feeling OK, (ok), OK, (ok), OK, (ok)  
So let's have some fun.

It's so easy  
If I can, so can you  
Just do the best you can do  
It's so easy  
Come on and play  
And show me the sign when you say

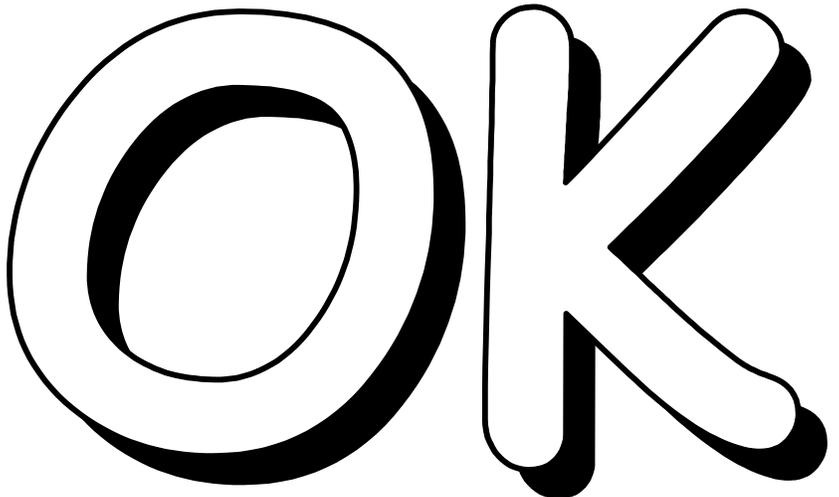

Feeling OK, (ok), OK, (ok), OK, (ok)  
And we've just begun  
Feeling OK, (ok), OK, (ok), OK, (ok)  
So let's have some fun.

You Can Color The Big "OK."

When Are You Feeling OK?

# Up And Down Blues

Some days I'm up  
Some days I'm down  
Some days I'm up  
Some days I'm down  
Some days come around  
When I'm not up  
and I'm not down

And every single morning  
It's my chance to choose  
Will I wake up with a smile  
Or wake down with the blues

I'd rather wake up with a smile  
Than wake down with blues

What Time Do You Get Up?  
Draw The Hands On The Clock.

What's The First Thing You Should  
Put On When You Wake Up?  
(Circle The Best Answer)

1. Pants
2. Shirt
3. Hat
4. Smile

Down

Down

# ONE PART

One part is all we have in the beginning  
One part, add another then there's two  
One part works together with the others  
One part is that special part from you

My Part

And All together everybody playing each and every part  
All together makes the music happen, makes the music start  
All together everybody doing the best that they can do  
All together...It comes down to...

My Part

One part may not seem like something special  
One part may not seem like all the rest  
One part may be all that you are doing  
One part may be the thing you do the best  
And All together everybody playing each and every part  
All together makes the music happen, makes the music start  
All together everybody doing the best that they can do  
All together...It comes down to...

My Part

One part, the part I play  
Is something that I like to do  
In my heart it has a special place  
And you've got a special place, too...  
Cause there's one part for you.

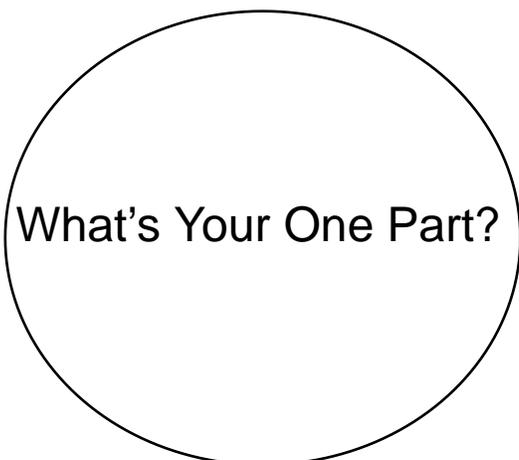

My Part

My Part

My Part

And All together everybody playing each and every part  
All together makes the music happen, makes the music start  
All together everybody doing the best that they can do  
All together...It comes down to... One Part.

My Part

THINK...

What Do I Do Best?

What Do I Do Better Than Anyone Else?

What Makes Me Special?

How Can I Discover My "One Part?"

# Big Round Rock

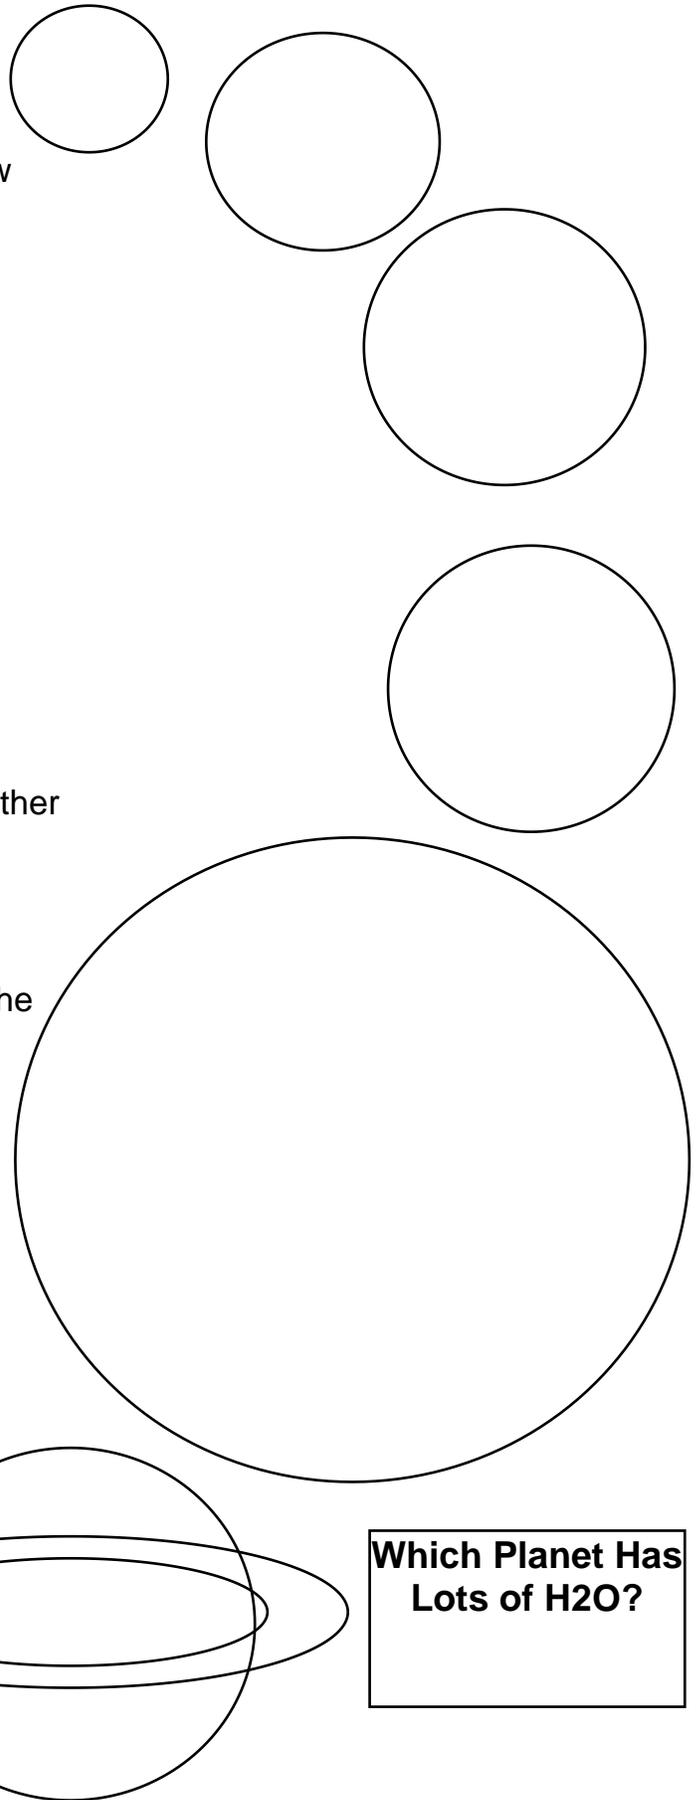

## Can You Name All Nine Planets?

We live on a...  
Big round rock, spinning in space  
We call it planet Earth, and it's my kind of place  
It's got the right atmosphere, solid ground below  
Animals and plants, and lots of H<sub>2</sub>O  
It's the best planet on the block  
It's just a big round rock

It's just a  
Big round rock, the only one there  
Where people can live so we've got to share  
All the space we've got, all the food we grow  
All the air we breathe, and all the H<sub>2</sub>O  
It's the last good planet in stock  
It's just a big round rock

Well it's my rock, your rock, everybody's rock  
Rolling round the milky way  
Yes, it's my rock, your rock, everybody's rock  
We'd better take good care and make it last another  
day

It's just a  
Big round rock, we'd better start soon  
If we mess up the earth, we'll have to move to the  
moon  
A little round rock with no room to grow  
It's got no atmosphere and no H<sub>2</sub>O  
The moon would be quite a shock  
It's just a little round rock  
We've got the best planet on the block  
So take care of our big round rock  
It's the last good planet in stock  
So take care of our big round rock

**Which Planet Has  
Lots of H<sub>2</sub>O?**

# Who Can Do It? I CAN!

What can I do to  
make a better:

Who can do it? I CAN  
Who can do it? I CAN  
Who can make a choice, make a difference, make a stand?  
Who can do it? I CAN

World

Who can make a better world we can share  
Who can make a better country, free and fair  
Who can make a better neighborhood, a better school  
I can make a better me, and that's cool.

Country

Who can do it? I CAN  
Who can do it? I CAN  
Who can make a choice, make a difference, make a stand?  
Who can do it? I CAN

We can make the right choice or we can be wrong  
We can make a difference, but we've got to be strong  
We can stand together or we can fall apart  
So I'm going to make the right choice  
And make a start

Neighborhood

Who can do it? I CAN  
Who can do it? I CAN  
Who can make a choice, make a difference, make a stand?  
Who can do it? I CAN

School

So never give up  
You've got to try  
You never know what you can do  
If anyone asks, say, "I CAN"  
You know it all starts with you  
(so tell me)

Me

Who can do it? I CAN  
Who can do it? I CAN  
Who can make a choice, make a difference, make a stand?  
Who can do it? I CAN

Who can do it? I CAN  
Who can do it? I CAN

# Jump Up

Everybody, listen to me  
We must recycle and conserve  
Everybody, listen to me  
If we want to save the planet Earth

Everybody JUMP UP  
Everybody JUMP UP  
Everybody JUMP UP  
And do what you can  
Everybody JUMP UP  
Everybody JUMP UP  
Everybody JUMP UP  
Do the best you can  
You've got to do the best you can

Tomorrow's just around the corner  
You know today's the day to start  
Together we can make the planet clean and green  
But you must JUMP UP and do your part

Everybody, listen to me  
We've got a lot of work to do  
Everybody, listen to me  
We're going to need some help from you

Everybody JUMP UP  
Everybody JUMP UP  
Everybody JUMP UP  
And do what you can  
Everybody JUMP UP  
Everybody JUMP UP  
Everybody JUMP UP  
Do the best you can  
You've got to do the best you can

What Can You "Jump Up"  
And Do To Take Care Of  
Our Planet?
